Automatic Disintegration Tester

User friendly Interface

Walkaway Automation

Robust Design

Bathless Heating
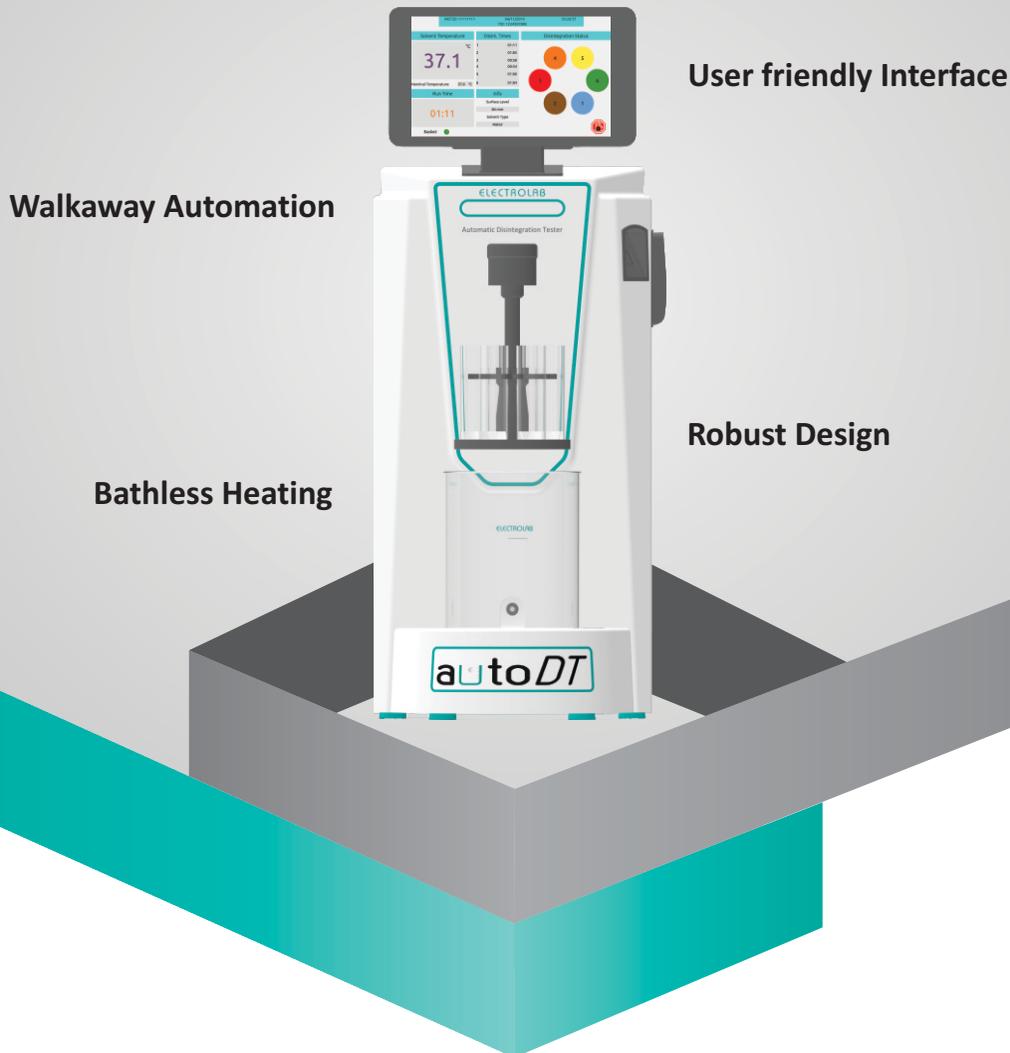

AutoDT is a fully automated disintegration tester, developed according to the current specifications provided under chapters <701> and <2040> in USP and <2.9.1> in Ph.Eur. It is 21 CFR Part 11 compliant and comes with a standalone interactive user friendly interface. Auto registration of disintegration time , autosensing of media type, fill level, and auto test start allows for walkaway automation. It warrants for minimal analyst time. Bathless heating technology further reduces wait times and maximizes throughput. The different configurations offer flexibility of testing several batches at the same time.

Bathless

Quick Heating

IR

Infrared Temperature Monitoring

Bathless Heating

Features	Benefits
Powersaving heaters to heat the medium	Saves electricity (56%), time and water (41%)
Quick heating	Saves time, increases productivity
Direct heating of the medium avoids water bath maintenance- cleaning and frequent changeovers	Increases compliance, eases setup
Infrared sensor based temperature monitoring	Provides accuracy
Firmware based temperature calibration	Provides ruggedness

Walkaway Automation

Features	Benefits
Automatic detection of medium type and medium fill level	Reduces wait times, increases convenience, increases throughput
Automatic test start upon reaching set temperature	Reduces wait times, increases convenience
Automatic detection of tablet disintegration time	Facilitates compliance, reduces human error
Automatic generation of audio-visual signals	Indicates instrument status

Automatic Test Start

Automatic Detection End Time

D'light ™

Technology

Acid Water Buffer

Media Detection

Robust Design

Features	Benefits
Compact footprint	Saves bench space
Baskets of inert material	Eases setup, avoids corrosion and contamination
Wire-free baskets	Provides swivel-free attachment, aids quick changeovers
Colour coded discs	Aids identification
No extraneous metal disc in beaker	Avoids bubbles and errosion

Snap- Click and Swivel Free

Maintenance Free

User friendly Interface

Features	Benefits
Interactive touch screen	Aids functioning, increases convenience
Increased protocol storage space, number of users and access levels	Increases compliance, eases setup
Biometric login	Increases compliance
Electronic logbook and audit trail	Provides complete 21 CFR Part 11 compliance, eases regulatory burden

Specifications

Model	AutoDT
Basket	1L
Basket	6 tube
Disc	Color coded discs
Display	7"
Printer interface	LAN / RS 232 / USB
Heater	100W
Illumination	Green LED /D'light
Power supply	230V
Strokes / min	30 ± 1 strokes / min
Stroke length	55 ± 1mm
Readable temperature range	20 to 45°C
Temperature Accuracy	± 1°C
Protocol Storage	1000
Test Report Storage	10000
Security	Multilevel with password for 250 users with 10 user programmable role
Biometric finger print	Optional
Thermal printer	Optional
Dimensions (LxWxH)	220 x 297 x 565 mm
Weight	7.5 kg

Warranty and Training

◎ 1 year warranty on limited parts. Conditions apply
◎ Training during installation provided
◎ IQ, OQ support is available

Please make a note that the Extended warranty covers only the mentioned parts. Labour / service is chargeable. The said warranty Stands valid when instrument is operated in normal conditions as mentioned in the protocol, void in case of abnormal ambients such as water impact, Rodent attack, Fire accidents etc.

ELECTROLAB

Our Products

• Complete range of Dissolution Testers • Dissolution Media Preparator • Friability Testers • Tablet Hardness Testers
• Electromagnetic Sieve Shakers • Tap Density Tester • Bulk Density Tester • Powder Flow Tester • Leak Testers • Peristaltic Pumps
